

# The Numbers Game

Every day children use problem-solving, thinking and reflection skills that make them a natural mathematician!

To find fun ways of exploring numbers adult can....

Sing counting songs and rhymes to teach children numbers and order, as well as rhythm and rhyme. 'Five Little Ducks', 'Ten in the Bed'... how many more can you think of?

<https://youtu.be/SQafHlz0XSs>

Play counting-based games such as dominoes, ludo, snakes and ladders

To help teach key concepts adults can.....

Measure

Find a tape measure or height chart and measure everyone in the family

Patterns and Sequences

Help children make a repeated patterns of building blocks, or beads on a string. Have a look at patterns in brickwork, tiles and paving
